## **DETAILED ACTION**

### ***Double Patenting***

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 1-10 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1,4,5,8,10,11,16 of prior U.S. Patent No. 6656928. This is a double patenting rejection. US '928 teaches a topical composition comprising clotrimazole (imidazole fungicide), fluocinolone (corticosteroid), and calamine. US '928 makes it clear that the composition can exist in gel form. See US '928 column 4 lines 9-12.

### ***Allowable Subject Matter***

Claims 11-20 are allowable. The prior art does not a process of treating the instant conditions with a composition comprising the ingredients of claims 11-20.
